

RAISING BILL VALIDATOR PERFORMANCE EXPECTATIONS

mei | cashflow®
sc series

MEI knows bill validators. Since developing the electronic, non-contact bill acceptor, MEI has created several families of highly engineered electronic payments systems that are currently relied upon for more than two billion transactions per week in over 100 countries.

Perhaps no other MEI product so ideally serves customer needs as well as the MEI CASHFLOW® SC Series. Slot machine performance has been redefined by increases offered by MEI CASHFLOW® SC in acceptance rate, jam rate and security.

The difference is apparent in the bottom line. The player experience is enhanced through increased equipment up time and improved acceptance of legal notes. Operators benefit from lower maintenance costs and an uplift in revenue from satisfied players.

Four words summarize the MEI CASHFLOW® SC:

Proven performance. Increased profits. The product features, and resulting benefits, have evolved from decades of MEI's experience to redefine the role and perception of bill validators within the Gaming industry – rewarding an investment in MEI CASHFLOW® SC with unparalleled returns.

Please contact your MEI sales associate to schedule a Value-added Trial (VAT) or learn how MEI CASHFLOW® SC can help increase the player experience and bottom line in your operation.

Proven performance. Increased profits.

MEI CASHFLOW® SC series sets the standard for bill validators worldwide.

The knowledge gained from producing over three million note acceptors has created:

Advanced acceptance and security

A series of features contributing to a higher overall acceptance rate for legal notes and barcoded tickets while increasing security against fraud.

- Unrivaled security against fraudulent notes due to a full scan “light bar” source that provides six wavelengths of light.
- Increased security through technology that scans more note surface.
- Advanced recognition algorithms that facilitate higher acceptance rates.
- Higher ticket acceptance rates.
- Faster resolution to disputes with a window revealing the value of the last note stacked in the cashbox.

Exceptional note handling

Virtually eliminating early rejects by attempting to accept all notes at first pass.

- Improved acceptance via a wheeled design that allows note insertion from any angle.
- Enhanced protection against fluid and dust from a sealed, shortened note path—significantly decreasing the risk of jams.
- Best acceptance of street quality banknotes.

Lower cost of ownership

Combining functionality and durability in a design that withstands the toughest conditions.

- Extremely durable cashbox constructed of Vertron plastic.
- Protected internal mechanisms and drive gears insulates components from the operating environment.
- Heavier gauge steel in chassis allows flexibility in mounting options.
- Easily updated through interface cards.
- Fewer moving parts reduce required maintenance and associated inventory.

Superior ease of use

Reducing the time, cost, and associated downtime previously associated with bill validator maintenance.

- Easy access to the acceptor head.
- At-machine diagnostics with color-coded LEDs.
- Access to a USB port on the acceptor head provides interface to support tools.
- One-hand, ergonomic cashbox.
- Hot swappable architecture allows components to be interchanged.

Additionally, product enhancements can add functionality to MEI CASHFLOW® SC series resulting in a tailored solution for your individual needs:

CASHFLOW® STS

a Portable Programming Module (PPM) makes downloading upgrades simple and fast. The PPM allows flash via USB connectivity.

EASITRAX® Soft Count

is an integrated software/hardware solution offering a faster, more efficient way to manage cash drops and evaluate data from slot machines.

GDS Compliant USB

a harness that enables GSA standards reflecting the movement towards USB peripherals

FEATURES

Custom bar code reader

Full scan light bar

Beltless roller drive

Smooth, sealed short note path

Diagnostic LEDs/Configuration button/
USB located on front face for easy access

Note path release

Easy access acceptor release latch

Conveniently located interface card
easily changed

Recessed plastic gears

Dispute resolution window

Durable welded plastic exterior
withstands rigorous daily use

Lockable removable
cashbox with
dual lock capability

FOUR CASHBOX SIZE OPTIONS:

SC
600 notes

SCM
900 notes

SCL
1200 notes

SCXL
2200 notes

BENEFITS

Proven Quality 1,200,000+ units in over 1,000 casinos

Global Notesets Nearly 100 countries are maintained by a full-time currency team

Revenue Highest banknote acceptance 98%+

Up Time Rarely jams as bank note is always controlled

TECHNICAL SPECIFICATIONS

ACCEPTANCE RATE

- 98% or greater¹

NOTE/BAR CODE COUPON INSERTION NOTES

- Up to 50 notes, four ways, faceup and down

BAR CODE COUPONS

- Two-way faceup

NOTE DIMENSIONS

- 62mm – 83mm width
120mm – 166mm length

TRANSACTION SPEED

- Approximately three seconds to stack

ESCROW

- One note or one bar code coupon

SC SERIES SUFFIXES

- A SPC USB tri-port
- E EASITRAX Soft Count
- G GDS USB
- U IGT USB
- V Vault Cashbox
- W EBDS/SPC USB (tri-port)
- X Deep Cashbox
- Y EBDS/GSA USB (tri-port)

INTERFACES

- Multiple serial protocols
- Multiple USB protocols

POWER SOURCE & CONSUMPTION

- 12V – 28VDC
- Standby: 10 Watts
- Accepting: 30 Watts
- Stacking: 70 Watts

ENVIRONMENTAL

- Operating Temperature 0°C – 60°C
- Storage Temperature -30°C – 70°C
- Humidity 5% – 95%²

SHIPPING WEIGHT

- SC Series 4kg (9 lbs.)
- SC Cashbox 1.5kg (3 lbs.)
